

How do I tell which distribution of PeakHour 3 I have?

PeakHour 3 comes in two distributions: Mac Appstore and Direct. In case you're not sure where you originally purchased it from, follow these steps:

1. With PeakHour 3 running, click the menu bar (or dock) icon to open the Main View.
2. In the bottom-right corner of the window, click the PeakHour logo to bring up the About window:

3. If the About window has a **License...** button in the bottom-left corner, you have the **Direct** version of PeakHour. If not, you have the **Mac Appstore** version.
